### COUNCIL MET IN REGULAR SESSION

The City Council met last night in regular session with all present except Councilman Britt. A number of communications, protests and requests were read and referred to proper committees or otherwise disposed of.

A request from P. R. Bradley, superintendent of the Alaska Juneau mines, for permission to erect a high tension power line through portions of the city limits was read. The proposed line is to start at Eleventh street at the junction of the channel in the Casey-Shattuck addition, run straight up Eleventh to the city limits, hit into the city limits at the head of Harris street and around the side of the bluff to the head of Kennedy street, down Kennedy to the bluff again and around the bluff through the city park to the Alaska-Juneau mill.

**Petition of Protest**  
A petition of protest signed by Lockie McKinnon, James York and August G. Brown, against the granting of a lease to Winter and Pond for the maintenance of a building on Main street next to their store, was presented and entered on the minutes of the meeting.

Mr. Pond explained the purpose of his building and stated that he intended to install a public drinking fountain in front of his place of business, and that in his occupancy of the unused street he would interfere with no one.

Mr. York objected to the building on the ground that it shut him off from his property above and would interfere with his building in case he decided to erect a house.

In the end, the matter was disposed of by an order directing the city attorney to draw up a lease for the street in question, with a provision that the right of way was to be vacated by Winter & Pond when so ordered by the council.

**Closing Ordinance**  
The first reading of a proposed city ordinance requiring all places in which liquor was sold and all billiard parlors to close between the hours of 1 a. m. and 6 a. m., on week days and from midnight Saturday to 5 a. m., Monday, was had.

Also, the first reading of a proposed ordinance regulating and compelling fire escapes on all buildings of more than two stories in height, and providing for punishment in case of its violation, was had.

A number of small bills were read and ordered paid in the usual manner. The question of purchasing new hose for the city was a subject of considerable discussion, and was referred to the committee on fire protection.

Main street, in the vicinity of the Pacific Coast company's wharf, was reported in a dangerous condition, and it became the will of the council that it should be planked at once. Also, Franklin street, between Fourth and Fifth, was ordered graveled with sand from the school lot.

The cemetery committee reported that the clearing of the plot was completed, and that the city engineer would plat the ground without expense to the municipality, and recommended that a small house be erected for the use of a sexton.

**Wants Police Protection**  
H. Bailey complained to the council of indecencies alleged to be going on on Lower Front street, which caused him to lose renters and suffer a financial loss. He asked that an officer be detailed in that portion of the town in the night time.

**DR. STORK ARRIVES.**  
A daughter was born to Mr. and Mrs. E. F. Perkins at their home at the Perseverance mine Thursday afternoon. Dr. Dawes was in attendance.

### HOPE GOES WEST FOR MINING SEASON

F. T. Hope, a Valdez mining man, passed through on the Northwestern today for Port Wells. He is interested in Col. B. F. Millard's property at Granite creek. The company expects to grind out \$2,000 daily this summer, a 75-ton stamp mill having been recently installed.

Mr. Hope is really a squire of Southeastern Alaska, having lived in Sitka 21 years ago.

The Empire has most readers

### EAST IS TALKING ABOUT ALASKA

"The East is looking toward Alaska as an opportunity for investment," said former Collector of Customs B. P. Moore, who arrived recently from New York and is a guest at the New Cain hotel. "The advertising the Territory received through the passage of the railroad bill by Congress, and the successful flotation in New York and Boston of the great Juneau mines has acquainted thousands of people about Alaska who never knew there was such a country, or at least who know little about it, a few years ago."

Mr. Moore operated gold mining properties at Pando Bay near Sitka, at one time in Alaska, and still has interests in the Territory, though this is his first northern visit in a dozen years.

"The improvements in Juneau and other sections of Southeastern Alaska that have taken place since my last visit have been wonderful," said Mr. Moore, "and no one can fail to see that more and greater changes are in store for the near future. The development of the Juneau gold belt has but just begun."

Mr. Moore will leave on the Georgia for Sitka Tuesday. He will return and remain longer at Juneau before going back to New York City, where his home has been since he left Alaska.

**ANNOUNCEMENT**  
Mrs. M. K. Struble will remain in the city and has a little time still open for engagements as tutor. 21-2t

## IN THE POLLING BOOTH

(Bulletin No. 17, Juneau Dry Club)  
"On election day, when you go behind the screen to register your vote, when you are alone with God and your thoughts, I want you to see that long line of little boys, as sweet and fresh as any of your own, going to the bar for the first time. I want you to see those boys, the cream of our land, turned into drunkards. I want you to see the long line of mothers, with eyes reddened from weeping and faces drawn and haggard, waiting in the night for the footsteps of the drunken father, and the little ones poorly clad and often beaten. IF YOU BACK YOUR BALLOT AGAINST THEM, I WILL NOT KNOW WHAT TO THINK OF YOU."

"I APPEAL TO YOU MEN IN THE NAME OF YOUR MANHOOD THAT YOU PROTECT OUR HOMES AND OUR CHILDREN, and I tell you women that IF THERE EVER WAS A TIME WHEN YOU SHOULD BE AROUSED, IT IS NOW. I point to a better day, which will reverse the old order, a day of der, a day of brave women and fair men."  
—Mrs. Nellie McClung in Union Signal.

### MORAL CITIZENSHIP IS TESTED AT THE BALLOT BOX

With ballot in hand you will grant the liquor traffic the privileges of ruining your boy and your girl, your neighbor's boy and girl, or you will DECLARE FOR THE PROTECTION OF THE HOME.

WHICH WILL IT BE?

# 1000 ACRES

of fine land was purchased at Mooseheart near Chicago by the Supreme lodge, Loyal Order of Moose of the World, and dedicated by the Vice-President of the U. S., Hon. Thomas R. Marshall, July 27, 1913, for the world's largest vocational school. Millions of dollars are being spent in erecting and maintaining a free school there for children of members of this order which is also erecting a large Moose Sanitarium and Home for aged and infirm members. Already about 500 children are being trained in the allied trades and arts at Mooseheart. In a recent article in the Chicago Tribune, Henry M. Hyde, said of Mooseheart: "A great farm school which owes nothing to the beneficence of any philanthropist, about which there is no taint of public or private charity. A school which starts with an annual income of \$500,000.00; a school which is owned in common by half a million men of modest position and income." Every member of Juneau Lodge No. 700 is entitled to the vocational education for his children at Mooseheart which also provides for the care of himself and wife in old age. The charter is now open and a cordial invitation is extended to all men of the Caucasian race able to read and write the English language, of good moral characters and believing in a Supreme Being. For a short time only the initiation fee will be \$5. Dues are \$3.25 quarterly in advance and entitle you to doctor's services free for yourself and family, \$9 per week when sick and \$100 in case of death. File your application today with Dr. Mahone in the Goldstein building and be one of the next large class for initiation.

C. SECREST, Dictator. J. FREDERICK JOHNSON, National Director.  
ALFRED BOAS, District Director.

### CAMP FIRE GIRLS OFF TO SITKA

On Tuesday, May 25, the members of the Alaska Camp Fire organization will leave on the Georgia for Sitka to pitch their long planned summer camp. The camp will be conducted under the guardianship of Miss Edith Kempthorne, the founder of the movement in Alaska.

The ten days of the stay at camp will be given over to the various activities of the organization, the girls will do all of the work about camp and will be off on various long hikes and trips of interest to spots about Sitka. It is Miss Kempthorne's idea to conduct the camp as nearly as possible on lines parallel to those followed by the head camp conducted in the Maine woods each summer by Mrs. Luther Gulick and the girls are looking forward to a very interesting and profitable outing.

The following girls will leave on the Georgia Tuesday:  
Anne McLaughlin, Sue McLaughlin, Hazel Jaeger, Ruth Umstead, Rose McLaughlin, Georgia Gilpatrick, Helmi Aalto, Enra Matthews, Margaret Dudley, Myrtle Jorgensen, Mabel Bathe, Mary Kashevaroff, Madge Case and Carrie Craig.

### HIGH SCHOOL PLAY RETURNED PROFIT

A report of the Senior Class Play was given by Superintendent Henderson in the school assembly this morning and was as follows: Total receipts from sale of tickets, \$186.75. After the entire expense of the play, covering advertising, staging, costume theatre rent, etc., had been paid there was a remainder of \$160.75. This amount was decreased again by a deficit on the high school Totem account for 1913 and 1914. After all outstanding student accounts had been paid there was a balance of \$60 which is to be turned to the High School Library fund and which will be used for the purpose of purchasing the reference books for the high school.

This new book purchase, it is claimed, will make the Juneau high school library the best of its sort in the Territory.
